#### **DETAILED ACTION**

1) Acknowledgement is made of Amendment received 7/11/2003. Applicant amends claims 5-6, and offers new claims 8-22, for consideration.

Claims 4-6, 8-22, are under consideration.

# Claim Objections

2) Claims 5-6, are objected to because the claims are dependent on cancelled claim 1. Applicant's method of changing claims dependencies is not accepted.

## Specification

A substitute specification is required pursuant to 37 CFR 1.125(a) because of numerous changes made to the specification and the changes were not entered by the Office. The marked-up copy submitted with the Amendment is not complete; missing are specification pages 2-4, 6. The Specification was not entered by the Office.

A substitute specification filed under 37 CFR 1.125(a) must only contain subject matter from the original specification and any previously entered amendment under 37 CFR 1.121. If the substitute specification contains additional subject matter not of record, the substitute specification must be filed under 37 CFR 1.125(b) and must be accompanied by: 1) a statement that the substitute specification contains no new matter; and 2) a marked-up copy showing the amendments to be made via the

substitute specification relative to the specification at the time the substitute specification is filed.

## Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4) Claims 13-22, are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 13 and 17, recite "A nicotine-free tobacco substitute composition consisting essentially of...". The limitation "consisting essentially off" is not recited in the specification originally filed.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5) Claims 17-22, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 17, lines 2-7, recites limitations, for example, "Eucommia ulmoides in an amount effective to provide the composition with the taste of tobacco;". Said limitations are subjective to individual persons, and thus the claims are not enforceable as to metes and bounds.

## Allowable Subject Matter

6) Claims 4-6, 8-12, are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The primary reason for indicating allowable subject matter is that the cited prior art does not show a tobacco substitute composition (claim 4) or a nicotine-free tobacco substitute composition (claim 8) comprising *Eucommia ulmoides*, *Glycyrrhiza glabra*, and *Perilla frutescens*, in the weight percent claimed.

#### Conclusion

7) Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 1731

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
